MATSON, INC. AND SUBSIDIARIES
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. DESCRIPTION OF THE BUSINESS

Matson, Inc., a holding company incorporated in the State of Hawaii, and its subsidiaries (“Matson” or the “Company”), is a leading provider of ocean transportation and logistics services. The Company consists of two segments, Ocean Transportation and Logistics.

Ocean Transportation: Matson’s Ocean Transportation business is conducted through Matson Navigation Company, Inc. (“MatNav”), a wholly-owned subsidiary of Matson, Inc. Founded in 1882, MatNav provides a vital lifeline of ocean freight transportation services to the domestic non-contiguous economies of Hawaii, Alaska and Guam, and to other island economies in Micronesia. MatNav also operates premium, expedited services from China to Long Beach, California, provides services to Okinawa, Japan and various islands in the South Pacific, and operates an international export service from Dutch Harbor, Alaska to Asia. In addition, subsidiaries of MatNav provide stevedoring, refrigerated cargo services, inland transportation and other terminal services for MatNav on the Hawaiian islands of Oahu, Hawaii, Maui and Kauai, and for MatNav and an ocean carrier in Alaska.

Matson has a 35 percent ownership interest in SSA Terminals, LLC, a joint venture between Matson Ventures, Inc., a wholly-owned subsidiary of MatNav, and SSA Ventures, Inc., a subsidiary of Carrix, Inc. (“SSAT”). SSAT currently provides terminal and stevedoring services to various carriers at eight terminal facilities on the U.S. West Coast, including three facilities dedicated for MatNav’s use. Matson records its share of income from SSAT in costs and expenses in the Condensed Consolidated Statements of Income and Comprehensive Income, and within the Ocean Transportation segment due to the nature of SSAT’s operations.

Logistics: Matson’s logistics business is conducted through Matson Logistics, Inc. (“Matson Logistics”), a wholly-owned subsidiary of MatNav. Established in 1987, Matson Logistics extends the geographic reach of Matson’s transportation network throughout North America and Asia, and is an asset-light business that provides a variety of logistics services to its customers including: (i) multimodal transportation brokerage of domestic and international rail intermodal services, long-haul and regional highway trucking services, specialized hauling, flat-bed and project services, less-than-truckload services, and expedited freight services (collectively, “Transportation Brokerage” services); (ii) less-than-container load (“LCL”) consolidation and freight forwarding services (collectively, “Freight Forwarding” services); (iii) warehousing, trans-loading, value-added packaging and distribution services (collectively, “Warehousing” services); and (iv) supply chain management, non-vessel operating common carrier (“NVOCC”) freight forwarding and other services.

2. GENERAL AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The Condensed Consolidated Financial Statements are unaudited, and include the accounts of Matson, Inc. and all wholly-owned subsidiaries, after elimination of intercompany amounts and transactions. Significant investments in businesses, partnerships, and limited liability companies in which the Company does not have a controlling financial interest, but has the ability to exercise significant influence, are accounted for under the equity method. The Company accounts for its investment in SSAT using the equity method of accounting.

Due to the nature of the Company’s operations, the results for interim periods are not necessarily indicative of results to be expected for the year. These Condensed Consolidated Financial Statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for fair presentation of the results of the interim periods, and do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete consolidated financial statements.

The Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2023, filed with the Securities and Exchange Commission (“SEC”) on February 23, 2024.

Fiscal Period: The period end for Matson covered by this report is March 31, 2024. The period end for MatNav and its subsidiaries covered by this report is March 29, 2024.

Significant Accounting Policies: The Company’s significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in Part II, Item 8 of the Company’s Annual Report on Form 10-K for the year ended December 31, 2023.

Use of Estimates: The preparation of the interim Condensed Consolidated Financial Statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the amounts reported. Estimates and assumptions are used for but not limited to: impairment of investments; impairment of long-lived assets, intangible assets and goodwill; capitalized interest; allowance for doubtful accounts and other receivables; legal contingencies; insurance reserves and other related liabilities; contingent acquisition related consideration; accrual estimates; pension and post-retirement estimates; multi-employer withdrawal liabilities; operating lease assets and liabilities; income (loss) from SSAT; and income taxes. Future results could be materially affected if actual results differ from these estimates and assumptions.

Prepaid Expenses and Other Assets: Prepaid expenses and other assets consisted of the following at March 31, 2024 and December 31, 2023:

Prepaid Expenses and Other Assets (in millions)	March 31, 2024	December 31, 2023
Income tax receivables, net	\$ 119.7	\$ 125.2
Prepaid fuel	26.0	22.5
Prepaid insurance and insurance related receivables	16.9	19.3
Restricted cash - vessel construction obligations	2.3	2.3
Other	18.4	19.6
Total	<u>\$ 183.3</u>	<u>\$ 188.9</u>

Income tax receivables primarily include a federal income tax refund related to the Company’s 2021 federal tax return of \$118.6 million and other income tax receivables. On April 19, 2024, the Company received the federal income tax refund of \$118.6 million and interest of \$10.2 million earned on the federal income tax refund.

Capital Construction Fund Investments: Capital Construction Fund (“CCF”) investments are held in fixed-rate U.S. Treasuries with various maturity dates of up to three years. These held-to-maturity debt securities are initially recognized at cost and subsequently measured at accreted cost, less any expected credit losses. The accreted cost is adjusted for accretion of discounts to maturity. The Company has classified these securities as held-to-maturity as the Company has the intent and ability to hold such securities until maturity.

Recognition of Revenues and Expenses: Revenue in the Company’s Condensed Consolidated Financial Statements is presented net of elimination of intercompany transactions. The following is a description of the Company’s principal revenue generating activities by segment, and the Company’s revenue recognition policy for each activity for the periods presented:

Ocean Transportation (in millions) (1)	March 31,	
	2024	2023
Ocean Transportation services	\$ 565.8	\$ 539.5
Terminal and other related services	8.7	6.9
Fuel sales	2.9	2.9
Vessel management and related services	1.6	1.7
Total	<u>\$ 579.0</u>	<u>\$ 551.0</u>

(1) Ocean Transportation revenue transactions are primarily denominated in U.S. dollars except for less than 3 percent of Ocean Transportation services revenues and fuel sales revenue categories which are denominated in foreign currencies.

- Ocean Transportation services revenue is recognized ratably over the duration of a voyage based on the relative transit time completed in each reporting period. Vessel operating costs and other ocean transportation operating costs, such as terminal operating overhead and selling, general and administrative expenses, are charged to operating costs as incurred.
- Terminal and other related services revenue is recognized as the services are performed. Related costs are recognized as incurred.

[Table of Contents](#)

- Fuel sales revenue and related costs are recognized when the Company has completed delivery of the product to the customer in accordance with the terms and conditions of the contract.
- Vessel management and related services revenue is recognized in proportion to the services completed. Related costs are recognized as incurred.

Logistics (in millions) (1)	March 31,	
	2024	2023
Transportation Brokerage and Freight Forwarding services	\$ 127.4	\$ 137.7
Warehousing and distribution services	9.1	9.6
Supply chain management and other services	6.6	6.5
Total	\$ 143.1	\$ 153.8

- (1) Logistics revenue transactions are primarily denominated in U.S. dollars except for less than 3 percent of transportation brokerage and freight forwarding services revenue and supply chain management and other services revenue categories which are denominated in foreign currencies.
- Transportation Brokerage and Freight Forwarding services revenue consists of amounts billed to customers for services provided. The primary costs include third-party purchased transportation services, agent commissions, labor and equipment. Revenue and the related purchased third-party transportation costs are recognized over the duration of a delivery based upon the relative transit time completed in each reporting period. Labor, agent commissions, and other operating costs are expensed as incurred. The Company reports revenue on a gross basis as the Company serves as the principal in these transactions because it is responsible for fulfilling the contractual arrangements with the customer and has latitude in establishing prices.
 - Warehousing and distribution services revenue consist of amounts billed to customers for storage, handling, and value-added packaging of customer merchandise. Storage revenue is recognized in the month the service is provided to the customer. Storage related costs are recognized as incurred. Other warehousing and distribution services revenue and related costs are recognized in proportion to the services performed.
 - Supply chain management and other services revenue, and related costs are recognized in proportion to the services performed.

The Company generally invoices its customers at the commencement of the voyage or the transportation service being provided, or as other services are being performed. Revenue is deferred when services are invoiced in advance to the customer. The Company's receivables are classified as short-term as collection terms are for periods of less than one year. The Company expenses sales commissions and contract acquisition costs as incurred because the amounts are generally immaterial. These expenses are included in selling, general and administrative expenses in the Condensed Consolidated Statements of Income and Comprehensive Income.

Capitalized Interest: The Company capitalizes interest costs during the period the qualified assets are being readied for their intended use. The Company determined that the vessel construction costs are considered qualifying assets for the purposes of capitalizing interest on these assets. The amount of capitalized interest is calculated based on the amount of expenditures incurred related to the construction of these vessels using a weighted average interest rate. The weighted average interest rate is determined using the Company's average borrowings outstanding during the period. Capitalized interest is included in vessel construction in progress in property and equipment in the Company's Condensed Consolidated Balance Sheets (see Note 5). During the three months ended March 31, 2024 and 2023, the Company capitalized \$0.8 million and \$0.4 million of interest related to the construction of new vessels, respectively.

Dividends: The Company's first quarter 2024 cash dividend of \$0.32 per share was paid on March 7, 2024. On April 25, 2024, the Company's Board of Directors declared a cash dividend of \$0.32 per share payable on June 6, 2024 to shareholders of record on May 9, 2024.

Repurchase of Shares: During the three months ended March 31, 2024, the Company repurchased approximately 0.4 million shares for a total cost of \$48.9 million. As of March 31, 2024, the maximum number of remaining shares that may be repurchased under the Company's share repurchase program was approximately 2.0 million shares.

New Accounting Pronouncements: In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07"). ASU 2023-07 requires disclosure of incremental segment information on an annual and interim basis. The ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, and requires retrospective application to all prior periods presented in the

financial statements. Early adoption is permitted. The Company is currently evaluating the effects of adopting ASU 2023-07 but does not expect it will have a material impact on the Company's consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, Improvements to Income Tax Disclosures ("ASU 2023-09"). ASU 2023-09 requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as information on income taxes paid. ASU 2023-09 is effective for annual periods beginning after December 15, 2024, and interim periods within fiscal years beginning after December 15, 2025. The Company is currently evaluating the effects of adoption ASU 2023-09 but does not expect it to have a material impact on the Company's consolidated financial statements.

3. REPORTABLE SEGMENTS

Reportable segments are components of an enterprise that engage in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The Company's chief operating decision maker is its Chief Executive Officer.

The Company consists of two reportable segments, Ocean Transportation and Logistics, which are further described in Note 1. Reportable segments are measured based on operating income. In arrangements where the customer purchases ocean transportation and logistics services, the revenues are allocated to each reportable segment based upon the contractual amounts for each type of service. The Company's SSAT segment has been aggregated into the Company's Ocean Transportation segment due to the operations of SSAT being an integral part of the Company's Ocean Transportation business.

The Company's Ocean Transportation segment provides ocean transportation services to the Logistics segment, and the Logistics segment provides logistics services to the Ocean Transportation segment in certain transactions. Accordingly, inter-segment revenue of \$46.6 million and \$40.1 million for the three months ended March 31, 2024 and 2023, respectively, have been eliminated from operating revenues in the table below.

Reportable segment financial information for the three months ended March 31, 2024 and 2023 are as follows:

(In millions)	Three Months Ended	
	March 31,	
	2024	2023

Income before Taxes	45.3	44.2
Income taxes	(9.2)	(10.2)
Net Income	<u>\$ 36.1</u>	<u>\$ 34.0</u>

- (1) Ocean Transportation operating revenue excludes inter-segment revenue of \$19.7 million and \$16.1 million for the three months ended March 31, 2024 and 2023, respectively.
- (2) Logistics operating revenue excludes inter-segment revenue of \$26.9 million and \$24.0 million for the three months ended March 31, 2024 and 2023, respectively.
- (3) Ocean Transportation segment information includes \$0.4 million and \$(1.8) million of net income (loss) from the Company's equity investment in SSAT for the three months ended March 31, 2024 and 2023, respectively.

4. INVESTMENT IN SSAT

The Company's investment in SSAT is described in Note 4 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023. Condensed income statement information for SSAT for the three months ended March 31, 2024 and 2023 consisted of the following:

On February 27, 2023, the Company completed an asset acquisition consisting of Logistics customer relationship intangible assets for \$16.5 million, which are being amortized over seven years.

The Company evaluates its goodwill and intangible assets for possible impairment in the fourth quarter, or whenever events or changes in circumstances indicate that it is more likely than not that the fair value is less than its carrying amount. The Company has reporting units within the Ocean Transportation and Logistics reportable segments. The Company considered the general economic and market conditions and its impact on the performance of each of the Company's reporting units. Based on the Company's assessment of its market capitalization, future forecasts and the amount of excess of fair value over the carrying value of the reporting units in the 2023 annual impairment tests, the Company concluded that an impairment triggering event did not occur during the three months ended March 31, 2024.

The Company will monitor events and changes in circumstances that could negatively impact the key assumptions used in determining the fair value, including the amount and timing of estimated future cash flows generated by the reporting units, long-term growth and discount rates, comparable company market valuations, and industry and economic trends. It is possible that future changes in such circumstances, including future changes in the assumptions and estimates used in assessing the fair value of the reporting unit, could require the Company to record a non-cash impairment charge.

11. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company values its financial instruments based on the fair value hierarchy of valuation techniques for fair value measurements. Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability. If the technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy, the lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The carrying value and fair value of the Company's financial instruments as of March 31, 2024 and December 31, 2023 are as follows:

(In millions)	Total Carrying Value	Total	Quoted Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	March 31, 2024	Fair Value Measurements at March 31, 2024			
Cash and cash equivalents	\$ 25.9	\$ 25.9	\$ 25.9	\$ —	\$ —

Fixed rate debt	\$ 430.5	\$ 345.8	\$ —	\$ 345.8	\$ —

(In millions)	December 31, 2023	Fair Value Measurements at December 31, 2023

Restricted cash	\$ 2.3	\$ 2.3	\$ 2.3	\$ —	\$ —
CCF - Cash and cash equivalent	\$ 599.4	\$ 599.4	\$ 599.4	\$ —	\$ —
Fixed rate debt	\$ 440.6	\$ 359.9	\$ —	\$ 359.9	\$ —

The Company uses Level 1 inputs for the fair values of its cash and cash equivalents, restricted cash, and CCF cash and cash equivalents and investments, and Level 2 inputs for fixed rate debt. The fair values of cash and cash equivalents, restricted cash, and cash and cash equivalents in the CCF approximate their carrying values due to the nature of the instruments. The fair value of investments in the CCF is calculated based upon quoted prices available in active market. The fair value of fixed rate debt is calculated based upon interest rates available for debt with terms and maturities similar to the Company's existing debt arrangements.

12. EARNINGS PER SHARE

Basic earnings per share is determined by dividing net income by the weighted average common shares outstanding during the period. The calculation of diluted earnings per share includes the dilutive effect of unexercised non-qualified stock options and non-vested restricted stock units. The computation of weighted average common shares outstanding excluded a nominal amount of anti-dilutive non-qualified stock options for each period ended March 31, 2024 and 2023.

The computations for basic and diluted earnings per share for the three months ended March 31, 2024 and 2023 are as follows:

The MD&A is provided as a supplement to the Condensed Consolidated Financial Statements and notes herein, and should be read in conjunction with the Company's [Annual Report on Form 10-K for the year ended December 31, 2023](#), the Company's reports on Forms 10-Q and 8-K, and other publicly available information.

FIRST QUARTER 2024 DISCUSSION AND OUTLOOK FOR 2024

Ocean Transportation: The Company's container volume in the Hawaii service in the first quarter 2024 was 1.7 percent lower year-over-year. The decrease was primarily due to lower general demand. According to UHERO's most recent forecast report, the Hawaii economy is projected to grow modestly supported by low unemployment and an increase in construction activity and jobs for large federal and state projects as well as home building on Oahu. Visitor arrivals are projected to increase modestly as the tourism industry continues to recover from the Maui wildfires last year in addition to the continued gradual return of international visitors. The Company expects volume in 2024 to approach the level achieved in 2023, reflecting modest economic growth in Hawaii and stable market share.

In China, the Company's container volume in the first quarter 2024 decreased 4.0 percent year-over-year. The decrease was primarily due to a more traditional post-Lunar New Year period with a gradual recovery of volume after factories

reopened and workers returned compared to a more accelerated increase in volume experienced post-Lunar New Year last year. The Company achieved higher freight rates in the first quarter 2024 as compared to the year ago period. Currently in the Transpacific marketplace, the Company continues to see steady U.S. consumer demand, which it expects to lead to improving demand for its CLX and MAX services in 2024 as compared to 2023. The Company also expects average freight rates in 2024 to be higher than the levels achieved in 2023.

In Guam, the Company's container volume in the first quarter 2024 was flat year-over-year. In the near-term, the Company expects continued improvement in the Guam economy with a low unemployment rate and a modest increase in tourism. For 2024, the Company expects volume to approximate the level achieved last year.

In Alaska, the Company's container volume for the first quarter 2024 decreased 5.1 percent year-over-year primarily due to one less northbound sailing. In the near-term, the Company expects continued economic growth in Alaska supported by a low unemployment rate, jobs growth and lower levels of inflation. For 2024, the Company expects volume to approximate the level achieved last year.

The contribution in the first quarter 2024 from the Company's SSAT joint venture investment was \$0.4 million, or \$2.2 million higher than the first quarter 2023. The increase was primarily due to higher lift volume. For 2024, the Company expects the contribution from SSAT to be higher than the levels achieved in 2023 due to an expected increase in lift volumes.

As a result of first quarter performance and the outlook trends noted above, the Company expects full year 2024 Ocean Transportation operating income to be higher than the \$294.8 million achieved in 2023 and higher than the previous outlook. In the second quarter 2024, the Company expects Ocean Transportation operating income to be moderately higher than the level achieved in the second quarter 2023.

Logistics: In the first quarter 2024, operating income for the Company's Logistics segment was \$9.3 million, or \$1.6 million lower compared to the level achieved in the first quarter 2023. The decrease was primarily due to continued market softness in transportation brokerage. For 2024, the Company expects challenging business conditions for transportation brokerage and expects operating income to be lower than the \$48.0 million achieved in 2023. In the second quarter 2024, the Company expects operating income to be lower than the level achieved in the second quarter 2023.

Consolidated Operating Income: For full year 2024, the Company expects consolidated operating income to be modestly higher than the \$342.8 million achieved in 2023 and expects comparable seasonality to the prior year. For the second quarter 2024, the Company expects consolidated operating income to be modestly higher than the \$96.7 million achieved in the second quarter 2023.

Depreciation and Amortization: For the full year 2024, the Company expects depreciation and amortization expense to be approximately \$180 million, inclusive of dry-docking amortization of approximately \$27 million.

Interest Income: The Company expects interest income for the full year 2024 to be approximately \$45 million. The increase in expected interest income from the prior outlook is due to the receipt on April 19, 2024 of \$10.2 million in interest income earned on the federal tax refund related to the Company's 2021 federal tax return.

Interest Expense: The Company expects interest expense for the full year 2024 to be approximately \$8 million.

Other Income (Expense): The Company expects full year 2024 other income (expense) to be approximately \$7 million in income, which is attributable to the amortization of certain components of net periodic benefit costs or gains related to the Company's pension and post-retirement plans.

Income Taxes: In the first quarter 2024, the Company's effective tax rate was 20.3 percent. For the full year 2024, the Company expects its effective tax rate to be approximately 22.0 percent.

Capital and Vessel Dry-docking Expenditures: For the first quarter 2024, the Company made capital expenditure payments excluding vessel construction expenditures of \$54.2 million, capitalized vessel construction expenditures of \$1.1 million, and dry-docking payments of \$5.2 million. Changes in operating revenue, and operating costs and expenses are further described below in the Analysis of Operating Revenue and Income by Segment.

The increase in interest income for the three months ended March 31, 2024, compared to the three months ended March 31, 2023, was due to increased amounts of cash and CCF funds that are invested in interest bearing accounts, and higher interest rates during the period.

The decrease in interest expense for the three months ended March 31, 2024, compared to the three months ended March 31, 2023, was due to lower outstanding debt during the period, and a higher offset of capitalized interest associated with new vessels construction.

Other income (expense) relates to the amortization of certain components of net periodic benefit costs or gains related to the Company’s pension and post-retirement plans.

Income tax expense was \$9.2 million or 20.3 percent of income before taxes for the three months ended March 31, 2024, compared to \$10.2 million or 23.1 percent of income before taxes for the three months ended March 31, 2023. The effective tax rate for the three months ended March 31, 2024 benefited from a 2.0 percent deduction related to foreign-derived intangible income (“FDII”) under Section 250 of the Internal Revenue Code that lowered the effective tax rate for the current period, compared to a 0.8 percent FDII deduction for the three months ended March 31, 2023. The FDII deduction for the three months ended March 31, 2023 was lower primarily due to lower projected income generated from the Company’s China service. The effective tax rate for the three months ended March 31, 2024 also benefited from certain discrete tax adjustments that lowered the effective tax rate in the current period.

Ocean Transportation revenue increased \$28.0 million, or 5.1 percent, during the three months ended March 31, 2024, compared with the three months ended March 31, 2023. The increase was primarily due to higher freight rates in China and the domestic tradelanes, partially offset by lower volume in China, Hawaii, and Alaska, and lower fuel-related surcharge revenue.

On a year-over-year FEU basis, Hawaii container volume decreased 1.7 percent primarily due to lower general demand; Alaska volume decreased 5.1 percent primarily due to one less northbound sailing; China volume was 4.0 percent lower primarily due to a more traditional post-Lunar New Year period with a gradual recovery of volume after factories reopened and workers returned compared to a more accelerated increase in volume experienced post-Lunar New Year last year; Guam volume was flat; and Other containers volume decreased 12.2 percent.

Ocean Transportation operating income decreased \$0.2 million, or 0.7 percent, during the three months ended March 31, 2024, compared with the three months ended March 31, 2023. The decrease was primarily due to higher vessel operating costs, including fuel-related expenses, and the timing of fuel-related surcharge collections, partially offset by higher freight rates in China.

The Company's SSAT terminal joint venture investment contributed \$0.4 million during the three months ended March 31, 2024, compared to a loss of \$1.8 million during the three months ended March 31, 2023. The increase was primarily driven by higher lift volume.

Logistics revenue decreased \$10.7 million, or 7.0 percent, during the three months ended March 31, 2024, compared with the three months ended March 31, 2023. The decrease was primarily due to lower revenue in transportation brokerage.

Logistics operating income decreased \$1.6 million, or 14.7 percent, during the three months ended March 31, 2024, compared with the three months ended March 31, 2023. The decrease was primarily due to a lower contribution from transportation brokerage.

receivables. Changes in prepaid expenses and other assets were primarily due to a decrease in prepaid income taxes for the three months ended March 31, 2024, compared to the same prior year period. Changes in accounts payable, accruals and other liabilities were due to the timing of payments associated with those liabilities.
